

My Family

My name is Mahdiya. I am the princess of my mom and dad. I live with a wonderful, sweet, and small family. We all live together in a separate, cozy house that is a super happy place. There are six members in my family. I have two brothers. Other family members include my mom, my dad, and our sweet loving grandmother. My home is the most beautiful place in the world with my happy family.

My mom is very caring and makes yum yum yum yummy food for us. She also helps me with my homework and reads me bedtime stories. She is always there for me, and I feel very blessed to have such mom. My dad is funny and strong. He loves to play games with us and makes us laugh with his funny weird stories. He also teaches me new things and takes us to the park when he has time.

I have two brothers who are very kind. Sometimes, we play together, and other times, we argue perhaps little fighting, but we always make up and have fun. They are my best friends, and we share a lot of happy moments together. My grandmother is sweet and loving. She tells us stories in a different language about when she was young, and I love listening to her though I do not understand anything. She gives the best hugs and always makes us feel loved.

Our home is the most beautiful place in the world because it is full with love, respect, and happiness. Every day, we spend time together, whether it is at dinner, watching Nastya, or going out for a picnic. On special days, we celebrate with deserts prepared my sweetest mom, and everyone loves that. God bless my happy family 😊😊😊
